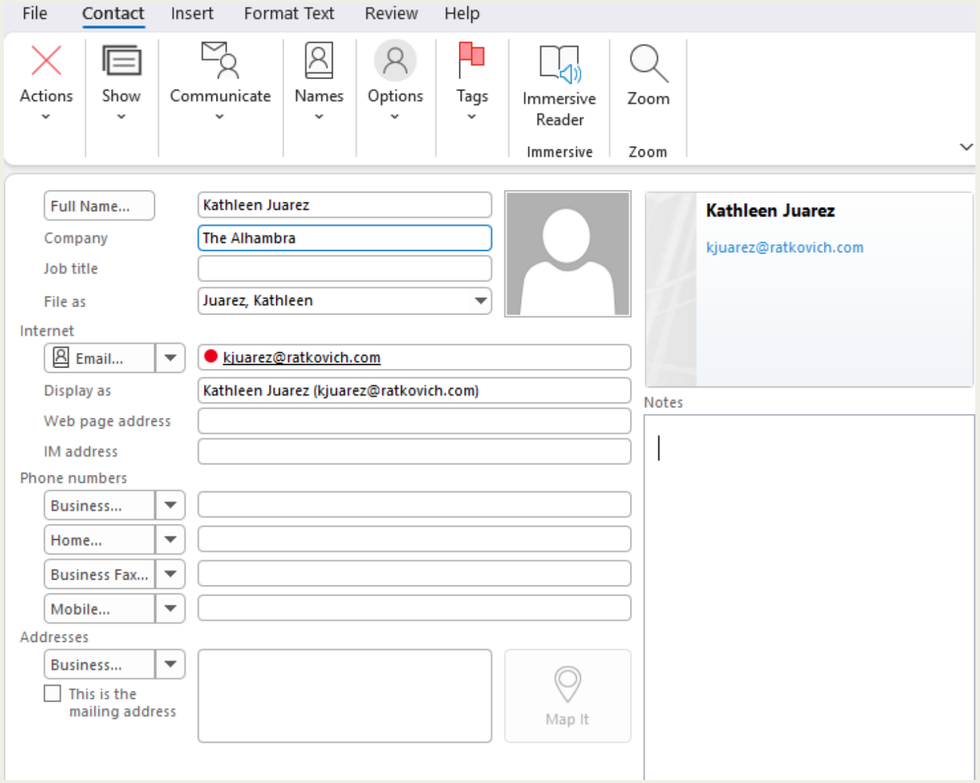
** These items may involve a cost to tenant.



CURRENT NOTIFICATION SYSTEM

manually create each building folder and then put individual contacts in one by one

Problem:

- List is static. Ex: Once contact is in the Building A10 contact folder, they stay there until manually moved to another building folder
- Need to constantly monitor contact lists for bounce-backs and remove dead email addresses
- Those wishing to be excluded from the list need to reach out via email to ask to be removed.

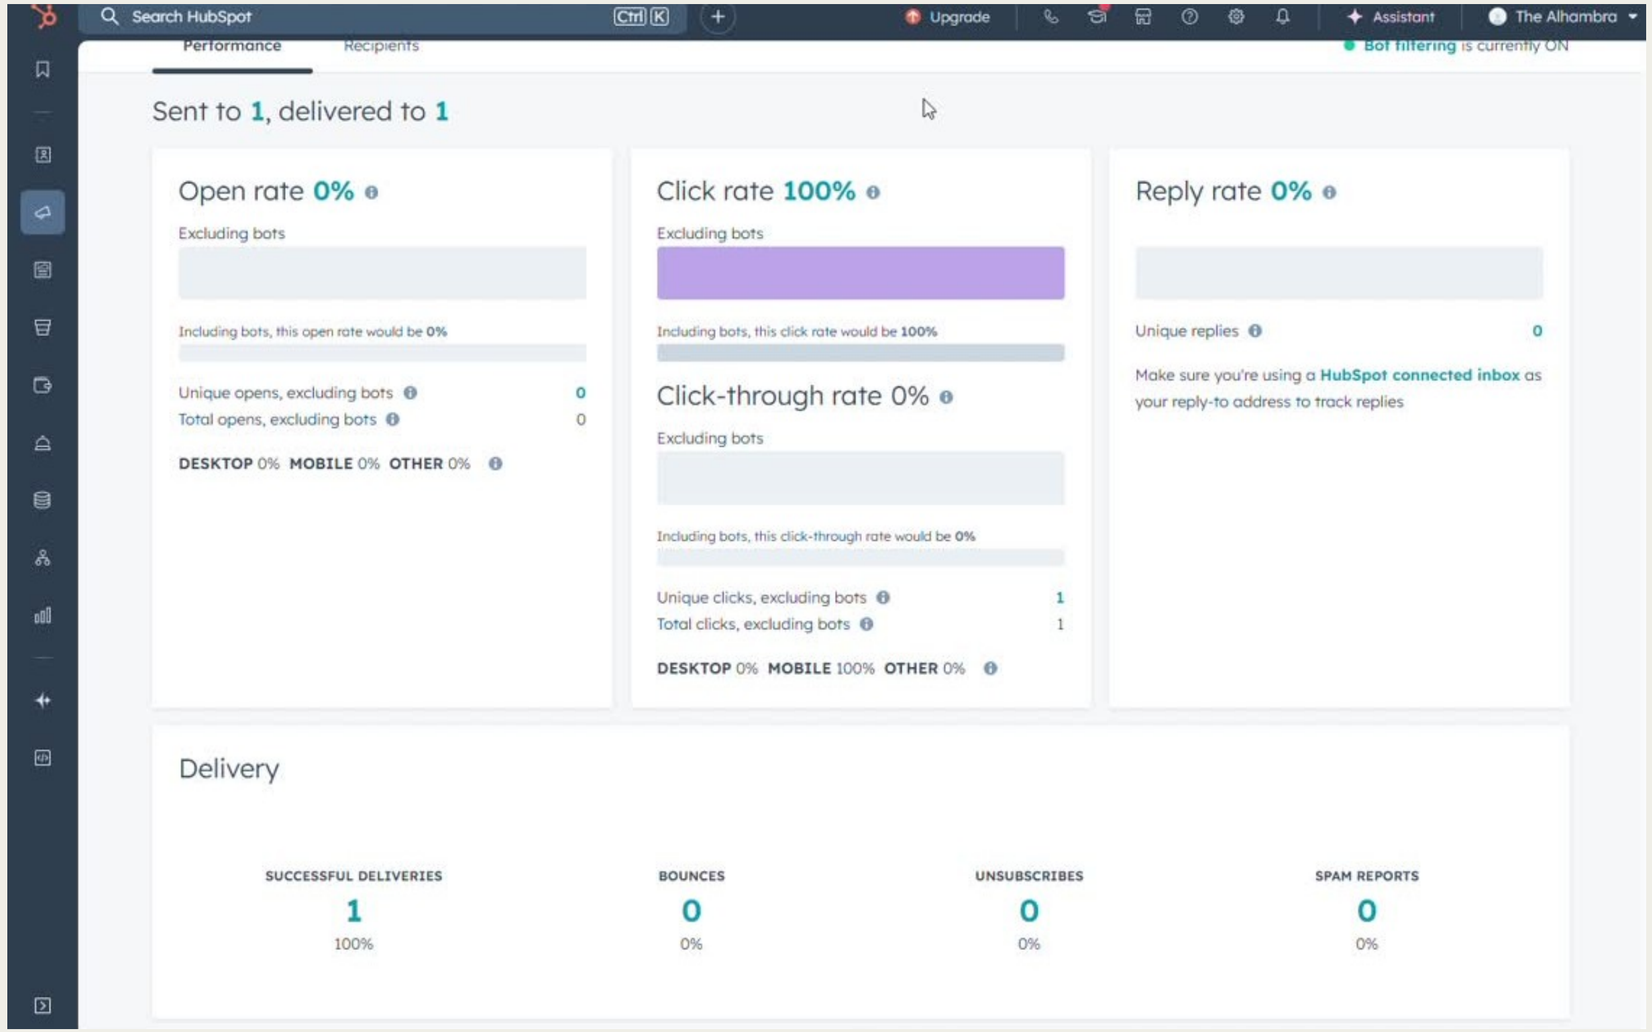
- Can choose the sender name and email address that the message is sent from



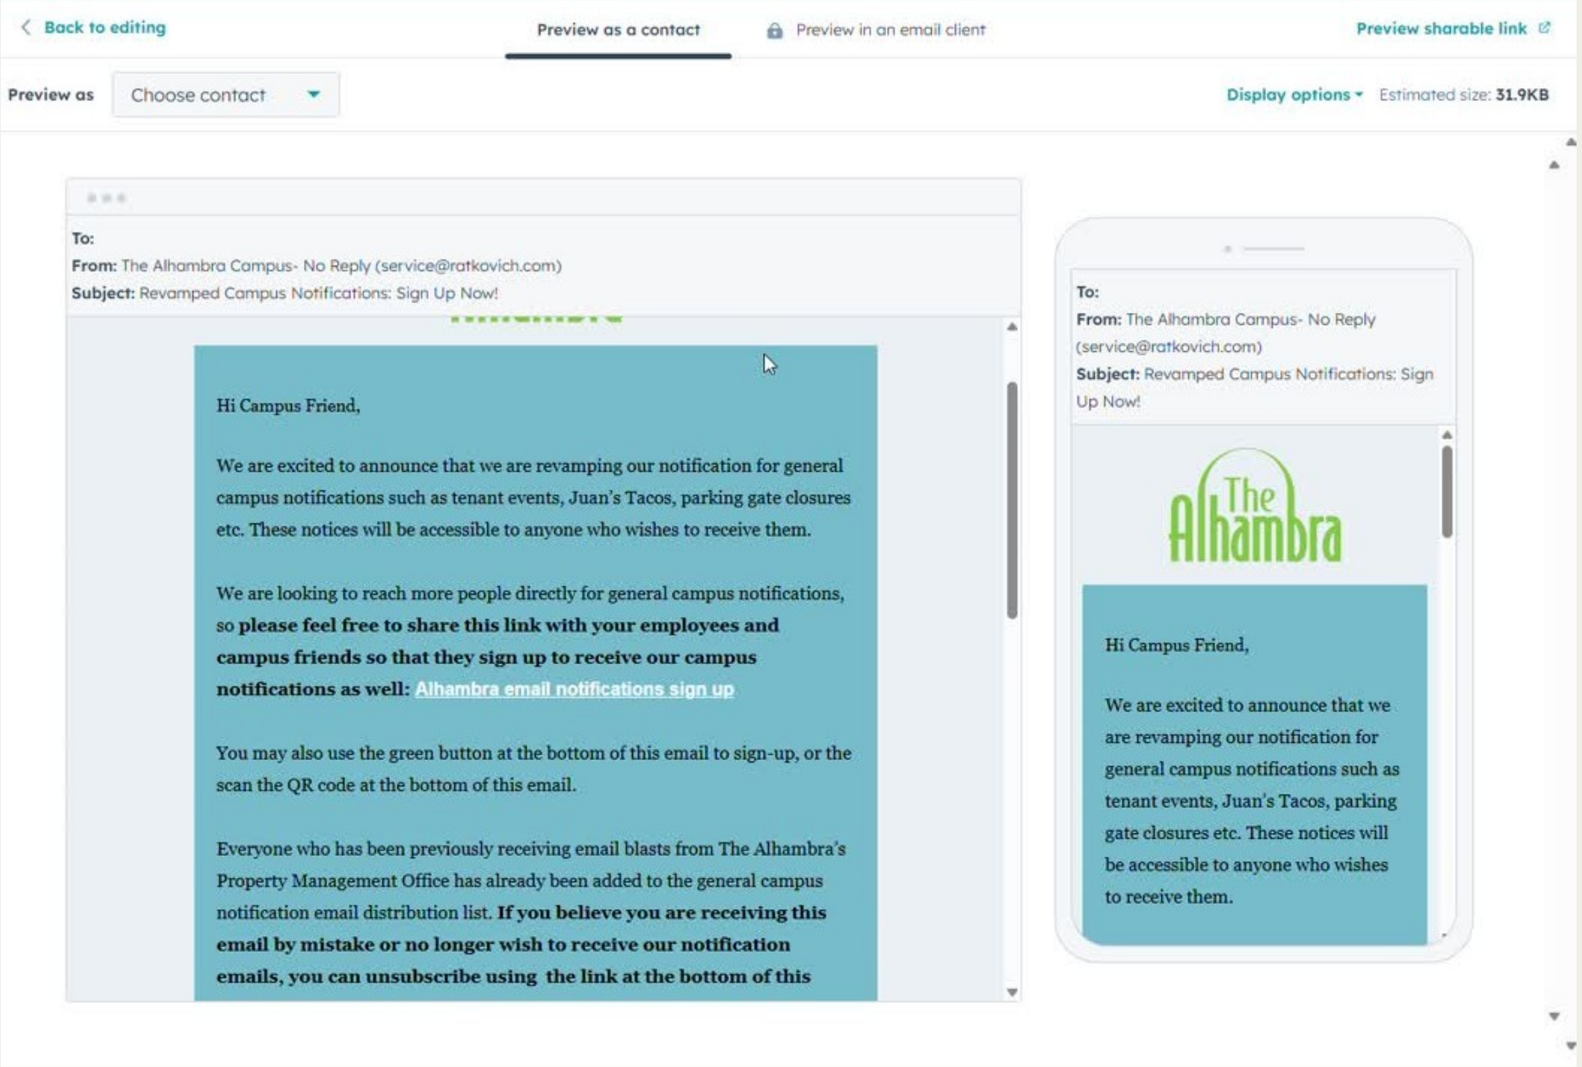
Email Monitoring

- Check delivery, open, and click through rates

Implementation:

Campus flyer with QR code and link to email sign-up form (shortened hyper-link created through bitly)

NEW TENANT EMAIL NOTIFICATION SYSTEM



Implementation:

- Notice to current tenant contact list announcing new notification system
- Include hyperlink to email sign-up form and QR code, so tenants can encourage other campus friends and employees to sign up for notifications

NEW TENANT EMAIL NOTIFICATION SYSTEM

Hi Campus Friend,

We are excited to announce that we are revamping our notification for general campus notifications such as tenant events, Juan’s Tacos, parking gate closures etc. These notices will be accessible to anyone who wishes to receive them.

We are looking to reach more people directly for general campus notifications, so **please feel free to share this link with your employees and campus friends so that they sign up to receive our campus notifications as well: Alhambra email notifications sign up**

Everyone who has been previously receiving email blasts from The Alhambra’s Property Management Office has already been added to the general campus notification email distribution list. If you believe you are receiving this email by mistake or no longer wish to receive our notification emails, **you can unsubscribe using the link at the bottom of this email.**

Thanks,
The Alhambra Property Management Team
